

◀ Typical weight range of equipment - 100-450 lbs.

We challenged ourselves to develop the toughest, rust proof drain pans in the industry.

◀ Test weight of cement blocks - 3000 lbs.

As you can see, we didn't buckle under the pressure.

Goliath Pan shown supporting 10 times the weight of a typical HVAC unit.

ADVANCED POLYMER

- Superior strength: high tensile, patented DexElar® material
- Crack/split/leak/rust resistant
- One piece, rolled edges, no seams
- In-mold risers
- Self extinguishing
- Hangable
- Extreme temperature durability
- Stackable
- All pans meet or exceed international building codes

Goliath

SECONDARY DRAIN PANS

A CSW Industrials Company

RectorSeal® 2601 Spenwick Drive - Houston, TX 77055 800-231-3345 rectorseal.com
