

## Overview

Includes NEMA standard transformer for excellent voltage control. Provide low voltage control of line voltage fan motors and auxiliary circuits in heating, cooling or heating-cooling circuits.

## Features

- NEMA standard Type D transformer (included) powers 24Vac control systems.
- Provides overload protection for transformer.
- Convenient connections for thermostat and heating and cooling equipment wiring.
- Mounts on standard 4 x 4 junction box.
- Can be mounted in any indoor location without additional enclosure.
- Relay is easily replaced without disturbing wiring.
- Includes relay enclosure..

## Product Specifications

|   |  |
|---|--|
| Application                               | For 24 Vac fan control applications  |
| Dimensions (in.)                          | 4 1/2 in. high, 4 3/16 in. wide, 3 3/32 in. deep                             |
| Dimensions (mm)                           | 114 mm high, 106 mm wide, 79 mm deep   |
| Includes                                  | R8222B   |
| Electrical Ratings                        | 12 W maximum   |
| Frequency                                 | 50 Hz; 60 Hz   |
| Approvals, Underwriters Laboratories Inc. | UL Listed  |
| Approvals, Canadian Standards Association | Certified  |
| Supply Voltage                            | 40 VA; 26.5 V - Secondary  |
| Voltage                                   | 120 Vac  |
| Switching Action                          | SPDT   |
| Horsepower                                | 3/4 HP   |
| Coil Ratings                              | Inrush-- 20 VA maximum, 17 VA nominal.; Sealed-- 10 VA maximum, 9 VA nominal |
| Approvals, NEMA Standard                  | NEMA Standard DC20-1992  |
